PROFESSIONAL PROFILE

A Proven Leader in Enterprise Analytics and Cutting Edge Business Solutions Development with Over 6 years' experience in Technology consulting. An Expert in Driving Global Industry Standard best practices through the deployment of proven technologies and a working engine room of Real-time Analytics while establishing a solutions environment that enhances day to day transactional computation and a rapid reporting Infrastructure with an end game of achieving business objectives and adding style and ease to business Operations.

MY KEY EXPERTISE

- Development of Enterprise application adhering to best practice methodology and managing SDLC from requirement elicitation, documentation, architecture design and modelling, development, UAT to GOLIVE.
- Business Analysis and enterprise architecture across FMCG, Banking & Financial Services, Public Sector, Manufacturing, Logistics, Haulage, Oil and Gas in Nigeria.
- Implementing Enterprise Performance Management Solutions, Planning, Forecasting, Budgeting, business Plan Simulations, Financial and Legal Consolidations to establish a full budgeting and statutory financial reporting at a Click of a Button.
- Enterprise Information Management, from data gathering, Profiling, Cleansing, Transformation, Migration, Governance and Reporting. Deploying Best practice ETL Strategies to maintain a seamless end to end Data Migration while ensuring over 90% data Integrity.
- Manage rollout of full Reporting Landscape for enterprise analytics. Accomplished in Business Warehousing, Business Intelligence, Predictive and Statistical Analysis, Spatial Intelligence and Geographical Information System Analysis, Big Data and the Hadoop Framework.

- Building Financial Reporting Models that Leverage on Ad hoc ERP Systems to provide solutions in areas such as IFRS Reporting, Profitability Cost Management, Cost Allocation Systems, Joint Venture Accounting and more ...
- Process Integration, Building Middleware's and Interface Application that engineer's Handshake between Various software deployments. Creating an environment of Unlimited Interoperability and Real time Sync of data for on the go reporting.
- Software Development, With the full delivery of Cutting Edge application development technologies and best practices from software requirement gathering to Final Application Development, deployment and Support.
- Incidence Management, Managing Change Request, Issue log gathering, review and close out process, Support Agreement and Coordination, Root cause analysis, Documentation and Training.

TECHNICAL STRENGTHS

Enterprise Architecture EA 3+

- ✓ TOGAF, ITIL, ZACHMAN, Software Architecture, Application Stacking
- ✓ Sparx EA Tool, Orbus EA Tool
- ✓ UML 2.0, BPMN, TOGAF Content Meta Model and Artifact Development
- ✓ TOGAF ADM
- ✓ Implementing EA Governance and practice

Business Analysis BA 4+

- ✓ BABOK Standards, Elicitation, BRD, FRD, NFRD, SRS, Other Documentations, Modelling, Prototyping, UI/UX Wire Framing, Mockups, Presentations and Technical Interpretation of Requirements,
- ✓ Documentation of Test scripts, Test scenarios, QA Acceptance Criteria, conducting UAT

Software Development 6+

- ✓ JAVA, ECLIPSE, J2EE, JBOSS.
- ✓ HTML 5, CSS 3, JAVASCRIPT, NODE JS, METEOR, ANGULAR JS, JBOSS
- ✓ .NET MVC 5, MVC 6, C#, VB.NET, Silverlight, Sharepoint
- ✓ XMARIN, ANDRIOD STUDIO, IONIC
- ✓ PHP LARAVEL

Database Technology 5+

- ✓ MySQL, MSSQL, SYBASE ASE, ORACLE 11.0g, Access, TSQL, TRIGGERS, UDF's, STORED PROCEDURES, SQL LITE
- ✓ SAP HANA, MONGODB, REDIS
- ✓ VIEWS, PARTITIONING, OLTP, OLAP, QUERY OPTIMIZATION

Analytics 4+

- ✓ Data Migrations, Statistical Analysis, Business intelligence, GIS and Spatial Analytics
- ✓ BW/DW/Data Mining, Big Data Analytics and Map reduce, Predictive Analysis/Machine Learning, Dash-boarding, Modelling & Prototyping
- ✓ SPSS, R, Tableau, ESRI ARCGIS
- ✓ Informatica – Power Center, Microsoft SQL Server Integration Services, Clover ETL, Altova Mapforce

SAP 3+

- ✓ Enterprise Information Management: HANA, BODS, IS, LSMW, MDG
- ✓ SAP Business Object: BI/BW, BPC, PCM, Dashboard, RDS, Rapid Mart
- ✓ SAP ABAP: Program Development, BAPI, BADI's, IDOCs, WRICEFs

SAS 2+

- ✓ SAS Anti Money Laundering
- ✓ SAS EGRC

PROJECT EXPERIENCE

- TOGAF EA IMPLEMENTATION

Client: FCMB

Project Duration: Nov 2016 - till Date

My Designation : Senior Business Analyst /Software Architect

Technology Team : 5

- EA Maturity Level Assessment and delivery of maturity report
- Performing EA for Practitioners Training and conduct on Training assessment
- Develop Action Plan for EA Maturity to desired level III by CBN Requirements
- Drive EA Compliance and lead business to attain maturity level

- SAS ANTI MONEY LAUNDRING IMPLEMENTATION

Client: SKYE BANK

Project Duration: AUG 2016 –
Till Date

My Designation : Senior Business
Analyst /Software Architect

Technology Team : 8

- High Level Business Requirement, Software landscaping and architecture design
- Developing of data mapping document for data migration to analytics system
- Development of AML Scenario's for generation of illicit transactions alert
- Development of Risk Scoring Mechanism for weighing AML Alerts in order of risk
- Project Management and Documentation

- NATIONAL DEPOSIT INSURANCE COMMISSION NDIC (BANK LIQUIDATION SOFTWARE)

Client: NDIC

Project Duration: March 2016
till Date

My Designation : Senior Business
Analyst /Software Architect

Technology Team : 8

- Requirement capture and documentation
- Document Use cases, Business requirement documents, Functional and Non Functional Requirement Document.
- Establish software Architecture, Database models, ETL methodology and Infrastructure requirement
- Coordinate Users Acceptance testing, QA and Compliance Check
- Coordinate signoff of major development milestones

- DANGOTE GROUP PROCESS ORCHESTRATION PROJECT

Client: Dangote Group/KPMG.

Project Duration: November
2015 till Date

- Deployment of SAP Process orchestrations
- Develop Architecture of secure communication between SAP systems and banking systems
- Build API Services that will be consumed by Bank Client systems

My Designation : SAP Process Integration Consultant/Solution Architect

Technology Team : 5

- Design and Develop Security Architecture, Token and Session Management, SSL Encrypted Communication between Dangote ERP and the Banks
- Messaging and Queue Management, Design of Synchronous and Asynchronous Messaging Architecture.
- Design and Develop Road Map for system communication, Monitoring and Data Validation before Posting Transactions.

• SAP ERP JOINT VENTURE, HCM IMPLEMENTATION

Client: New Cross Petroleum Nig.

Project Duration: August 2015 – Ongoing

My Designation : Enterprise Information Manager

Technology Team : 21

- Deployment of SAP Enterprise Information Management Suite (Data Services, Information Steward, Business Intelligence Platform)
- Liaise with process Owners to Define Migration Data Object and Set up Data Profiling and Governance Criteria.
- Define Data Objects, Data Sources and Setup Extraction, Transforms and Load Models
- Design Information Steward Cleansing packages, Manage Lookup Enhancement Services
- Liaise with Process Consultant on Testing of process based on loaded data
- Deploy Process Integration Packages to establish 2 Way Handshake Data Replication between two system
- Manage Data Integrity Check and Completeness Check; Integrate Validation Checks and Setup Change Management Sessions with Data Object Owners to Discuss Integrity, Completeness, Validations and Enhancement.

• BUSINESS PLANNING AND CONSOLIDATION DEPLOYMENT

Client: UACN GROUP

Business Units : UAC Corporate Center, UNICO CPFA, CAP Limited, UAC Foods Limited, Grand Cereal

- Deployment of SAP Business Object Planning and Consolidation Application with Integration to Microsoft Office
- Implementation of SAP IFRSC Starter Kit and IIS EPM Web and Office Handle

Limited, UAC Restaurant, MDS Logistics, UPDC

Project Duration: March 2015 – August 2015

My Designation : Solution Architect/ Technology Consultant

Technology Team : 5

- Development of Statement of Financial Position, Income Statement, Statement of other comprehensive income, Statement of Cash Flow and Statement of Change in Equity
- Development of Legal Consolidation Model to Run Financial Consolidation based on business Units Equity and Non-Controlling Interest
- Development of Revenue, Inventory, Cost of Sale, Expenditure, HR and PL Planning Models
- Development of SSIS Migration Packages to Load data from Native ERP System to BPC models

• ENTERPRISE INFORMATION MANAGEMENT IN SAP ECC 6.0 ERP DEPLOYMENT

Client: UACN GROUP

Business Units : UAC Corporate Center, UNICO CPFA, CAP Limited, UAC Foods Limited, Grand Cereal Limited, UAC Restaurant, MDS Logistics, UPDC

Project Duration: JUNE 2014 – MARCH 2015

My Designation : Data Manager

Technology Team : 34

- Rollout Deployment of SAP Enterprise Information Management Suite (Data Services, Information Steward, Business Intelligence Platform)
- Liaise with process Owners to Define Migration Data Object and Set up Data Profiling and Governance Criteria
- Define Data Objects, Data Sources and Setup Extraction, Transforms and Load Models
- Design Information Steward Cleansing packages, Manage Lookup Enhancement Services
- Liaise with Process Consultant on Testing of process based on loaded data
- Deploy Process Integration Packages to establish 2 Way Handshake Data Replication between two system
- Manage Data Integrity Check and Completeness Check; Integrate Validation Checks and Setup Change Management Sessions with Data Object Owners to Discuss Integrity, Completeness, Validations and Enhancement.

• PROCESS INTEGRATION BETWEEN ENTERPRISE LOGISTICS MANAGER AND SAP SD MODULE

Client: MDS Logistics Limited

Project Duration: JANUARY – MARCH 2015

- Manage Process Integration Requirement Gathering
- Design Technology Stack for process Integration Application Development
- Access ELM Source System with Database Administrators

My Designation : Technology Consulting

Technology Team : 8

- Gather Data Objects and Extraction Sources
- Develop Integration Application Using .NET Framework
- Manage Software validation process and Sign Off
- Setup QA and UAT run through and manage impact analysis and User Acceptance Criteria Fulfillment
- Manage Training and On Boarding Workshops
- Drive Change Management, Incidence Management and Support

• PROCESS INTEGRATION BETWEEN UNICO CPFA SYBASE AND SAP FI MODULE

Client: UNICO CPFA Limited

Project Duration: JULY 2014 – DECEMBER 2014

My Designation : Technology Consulting

Technology Team : 8

- Manage Process Integration Requirement Gathering
- Design Technology Stack for process Integration Application Development
- Access ELM Source System with Database Administrators
- Gather Data Objects and Extraction Sources
- Develop Integration Application Using .NET Framework
- Manage Software validation process and Sign Off
- Setup QA and UAT run through and manage impact analysis and User Acceptance Criteria Fulfillment
- Manage Training and On Boarding Workshops
- Drive Change Management, Incidence Management and Support

• PROFITABILITY AND COST MANAGEMENT (SAP PCM & PROCESS INTEGRATION)

Client: Nigeria Petroleum Development Commission NPDC (Edo State)

Project Duration: JAN 2014 – JULY 2015

- Rollout of SAP Profitability and Cost Management Application
- Development of Process Integration ETL third Party Application to Establish Hand Shake between SAP ECC and PCM Models
- Design of Allocation Drives and Manage gathering of Allocation Drives from NPDC JV's

My Designation : Technology Consultant

Technology Team : 6

- Run Cost Allocation at the End of a financial period and run analytics based on allocation and share with Business and JV's
- Post Allocation Data into ERP System Using Legacy System Migration Work Bench
- Design Cost Allocation Models to Adhere to the Uniform Accounting Policies (UAP) for Oil and gas to Establish Fair Cost Allocations along WBS's and OML's

• BUSINESS INTELLIGENCE ANALYTICS

Client: Society of Health Foundation

Project Duration: OCT 2013 – AUGUST 2014

My Designation : Business Warehousing/Rapid Marts Consultant

Technology Team : 11

- Implementation of SAP Business Intelligence Platform, SAP Business Warehouse and SAP Rapid Mart
- Manage Data Migration of SAP Data Objects from the ERP System to the BI Universe
- Building Out Business Intelligence Reports
- Manage Validation Sessions of Reports with the Report Owners.
- Logging Issues and managing the close out of issues and sign off on reports.
- Managing Change Requests.

• ROUTE TO MARKET APPLICATIONS (APPLICATION DEVELOPMENT)

Client: Promasidor, MDS Logistics, Netops Enterprise logistics Management.

Project Duration: JULY 2015 – December 2015

- Application Landscape Analysis, Identifying Service Ends and handling brainstorming sessions with other technical members to decide on technology specs of the Middleware to Deploy.
- Requirement Gathering and Documentation, Project Blueprinting using SCRUM Approach.
- Deployment of JBOSS Fuse as the Enterprise Service Boss for Synchronous and Asynchronous End points Across Data End Points.

My Designation : Process Integration Expert, Between Microsoft Navision, ELM and TDC

Technology Team : 8

- Development of Event Emitters and Listeners fusing to JBOSS Adapters both from Microsoft Navision, ELM and TDC.
- Managing Communication Logging, Validations, Approval Work Flows Across the ESB.
- Design Communication route to NIBBS EBillsPay and Various Bank payment platforms to establish real time monetary transactions and proper Notification and feedback systems.

• NIGERIA LAW SCHOOL PORTAL (APPLICATION DEVELOPMENT)

Client: Nigeria Law School.

Project Duration: JUN 2012 – OCT 2013

My Designation : Application Developer (VB.NET)

Technology Team : 5

- Organize sessions with the Client in order create the Project Blueprint.
- Liaise with other developers to build application Stack.
- Build Data Models round key objects defining relationships, Indexes, Data Elements, Stored Procedures, User Defined Functions, database Agents and triggers.
- Core Application Development of Custom DNN Modules to create an end to end Process flow as specified in the blueprint
- Direct the Documentation of User Stories and User Acceptance Criteria's and the Unit testing of the fulfillment of each story
- Real Time Technical Support during operation of the portal

• KWARA STATE BUS TICKETING APPLICATION (APPLICATION DEVELOPMENT)

Client: Kwara State Government

Project Duration: SEPT 2008 – APRIL 2010

My Designation : Applications Developer

Technology Team : 6

- UI/UX Development
- Application Development using C#
- Development of Reporting Dashboards for Executives using AJAX Virtualization Kit and Microsoft Crystal reports
- Design of Application Model Using Microsoft Visio and UML.
- Manage Version Control on SVN, Develop Utility Classes for Other Developers in the team to consume
- Build Notification Engine for Workflow, Approvals and Feedback

WORK EXPERIENCE

FREELANCE TECHNOLOGY CONSULTANT (April 2017 till date)

TRIVERSA LIMITED –Lead Business Analyst and Enterprise Architect (March 2016 – April 2017)

- Lead Business Analyst and Enterprise Architect (March 2016 – April 2017)

C2G CONSULTING – CONTRACT/THIRD PARTY DEVELOPER/ANALYTICS EXPERT (OCT 2013 – March 2016)

- Senior SAP Technology Consultant (June 2014 – March 2016)
- Consultant 1 SAP Technology Consultant – Analytics (Oct 2013 – June 2014)

BSCOMMATRIX SOLUTIONS (AUGUST 2011 – OCT 2013)

- Product Manager (Feb 2013 – Oct 2013)
- Web Application Developer (June 2012 – Feb 2013)

CONSULTINGBORD (JUNE 2008 – APRIL 2010)

- Application Developer

ACHIEVEMENTS

- NYSC State Award - MOST OUTSTANDING CORP MEMBER – GOMBE STATE.
- Building Over 10 Government Related Applications and Implementing these applications in across different states in Nigeria
- Implementing the First Rollout of SAP Profitability and Cost Management in Africa for NNPC NPDC for distributing Common Costs
- Deploying Over 8 SAP Tools, Over 5 SAP Modules and Migrating Data from 6 Legacy systems for the Realization and GO Live of SAP for UACN PLC 9 Business Units
- Roll out of SAP BPC 10.0 for UACN Group, Implementation of IFRS Consolidation Packages, for Income, Cash flow, Change in Equity and Balance Sheet Consolidation.

CERTIFICATIONS/TRAINING

- ESRI ArcGIS Certificate of Completion GIS, Remote Sensing and Spatial Analytics **(2016)**
- ATE Certificate Enterprise Architecture for Practitioners EAFP TOGAF 9 **(2016)**
- SAP Solution Associate Incident Management **(2014)**
- MCITP Business Intelligence Developer **(2012)**
- AWS Technical Professional **(2014)**
- CompTIA A+ **(2010)**
- CompTIA Network+ **(2010)**
- W3Schools Web Developer **(2009)**

EDUCATION

- MGIS. Master Geographical Information System – University of Lagos (Ongoing)
- BSC. ELECTRICAL AND ELECTRONICS ENGINEERING – AAU (2008)
- SSCE – GREATER TOMORROW SEC. SCHOOL (2002)

PERSONAL INFORMATION

- DATE OF BIRTH: 19th June 1988 (28 Years Old)
- MARITAL STATUS: Married (Engaged)
- HOBBIES: Travelling | Watching Sports
